As for the music, it can be said with our reservation that there is much action in the work and what most people will carry away with them is a recollection of changeful stage pictures, movement and an atmosphere of gloon.

"La Navarraise" is a melodrama rather than opera. The incidents follow one another too rapidly to permit the clear development of a cusical mood, in a vague manner the composer creates an instrumental agitation in which the low register of the orchestra stands for misery and the bleat of the trumpets for war.

Only twice does Massenet have opportunity to expand moods in definite musical forms. When the hero and heroine first ment there is a duct. They joined forces with the late J. J. Hill, and the trio acquired the St. Paul and Pacific Railroad, which had failed and had fallen into the hands of its Dutch bondholders. The line was built through from St. Paul to Winnipes.

The importance of this early venture on the subsequent development of the Canadian West lay in the fact that it made the building of the Canadian Pacific possible, as supplies for the construction gangs in the otherwise inaccessible prairie section passed over it. On recommendation of the Government of Canada Queen Victoria conferred a haronetcy on him in 1886 and a peerage in 1891. He retired from the presidency in 1888 and soon afterward went to live in Envisand.
